

### **Carry-Over CLE Credits**

Carry-over credits from the previous reporting period may be used to meet the requirements of the current reporting period. If current reporting period total credits exceed 45, a maximum combined total of 15 credits may be carried over to the next reporting period, two (2) of which may be ethics credits.

**Note:** To count as carry-over credit the activities from the past reporting period must be certified. You may certify additional credits supplementally if they were not originally certified and you have not already certified the maximum credits for carryover.
