

Elizabeth Jennings

I have been a member of the WSBA Elder Law executive committee since 2022 and find value in serving our section, the attorney members of the Elder Law section, and ultimately the clients and families who benefit from the work we do in the area of elder law.

I am interested in being considered for the President Elect role in 2025-2026 in order to build on the work of the committee, help grow the practice group, and continue to offer education and resources of those currently practicing and hoping to practice in the area of elder law. I have experience serving clients in this area both in a smaller, dedicated elder law firm as well as part of a larger firm and have seen the issues facing our section continue to evolve with new technology, practical and governmental hurdles, and changes to the law. I hope to continue this work through the executive committee and in my own practice.
